Morningside Academy Field Trip Guidelines

Field trips can be an effective way to enhance the educational experience at Morningside Academy. For this reason, each class is permitted two field trips per year to attend an off-campus activity. Field trips are teacher initiated, administration approved and must follow specific guidelines:

1. Transportation of all students to and from the field trip site must be on school owned or chartered vehicle. Drivers of these vehicles will be agents of the school or school employees and have the appropriate licensure, eg. CDL for bus or van over fifteen passengers.
2. All students must have written permission from a parent or guardian to attend the field trip. If a student does not have permission to go, that student will remain on campus in another classroom with work assigned by the teacher for that day.
3. Students who do not go on the field trip and who are not present at school, will have an unexcused absence for that day.
4. Students who arrive at school out of uniform or teacher-directed dress code, will remain on campus for the day.
5. If parent chaperones are needed for the field trip, these parents must follow the school vehicle to the field trip site or meet the group there at a predetermined place and time.
6. No siblings are permitted on any school sponsored field trips. If a parent who has offered to chaperone finds that they have been unable to find child care for their younger child, that parent should notify the teacher as soon as possible so an alternate chaperone can be found.
7. Teachers will go over specific guidelines for behavior, meeting places and times, etc. with parent chaperones. It is expected that these guidelines will be strictly adhered to, so that the safety of all of the students is assured.
8. Students are under the authority of the teacher, and parents are expected to respect that authority should any question of discipline arise.
9. Teachers will assign a follow-up activity related to the content of the field trip program.
